

# Swedish Lapland Husky Tour

2 days on the husky tour, 4 days/3 nights

One of the flexible trips we can offer. Can be started on any day of the week, subject to the minimum booking of 2 persons although of course it is popular as a weekend tour. Arrival airport Kiruna, Sweden.

Children 12 and under are half price so this is a great trip for families. Depending on the child's height, weight and competence those between 13 and 15 may be able to drive a shared sled. Younger children will travel in their parents sled although it may be possible for even under 13s to drive the sleds for short periods. With younger children it is possibly best to book late season trips when it is a bit warmer!

## Day 1:

You arrive in the afternoon/evening, transfer to base and have dinner or snack (depending on how late you arrive) and then stay the night at the Husky base camp.

## Days 2 & 3:

Preparation for your safari commence around 10pm on the first day and after instruction and packing your sled you will lead your own team of huskies on an amazing trip through forest land and across frozen rivers staying in a simple wilderness cabin for one night. Lunch by a fire or in a simple shelter. Return to base mid-afternoon on the second day.

#### **Day 4:**

Breakfast. Transfer to airport.

**Note:** The accommodation is in cabins in bunk beds with no running water. Heating is provided by a wood burning stove and lighting by candles. The loo is outside. It is a 'hands on' trip where you are actively encouraged to look after your dogs, i.e. feed and water them and bed them down for the night

(under supervision), fetch water, chop wood so you get the true feeling of being a 'musher'.

**Ice Hotel:** A visit to the Ice Hotel can be possible before or after this trip depending on your flight schedule. This must be booked in advance and paid locally in Swedish Krone (around £40). It's worth a visit just to see the sculptures and a good opportunity to take photos.

**Extend your stay:** You can also add igloo building, snowmobile adventures, XC skiing, reindeer farm visit, ice fishing and more .... according to how much time you have to spare. Ask for details or see the 'Swedish Lapland Adventures' on the multi-activity page of our website.

**Extra night's accommodation** half board in a simple cabin at the base is **£75** per person per night.

**£695** per person on sled drawn by 3 to 4 dogs. Extra day dogsledding with full board and accommodation **£275**.

**Departures:** upon request from mid November to mid April

**Included:** transfers from and to the airport, full board, an English speaking guide, extra outer clothes needed for protection from the cold, sled and your own team of huskies.

**Not included:** flights, travel insurance

**Note:** Distances covered and exact programme are subject to weather conditions and client ability
